

Table of Contents

UTC's Acronyms and Abbreviations	1
Executive Summary	11
Introduction	15
A. AMR, AMI, and Beyond	17
B. Communications Network	18
C. An Internet Protocol (IP)-based Future	19
D. The Future "Smart Grid"	22
Chapter I: Automated Meter Reading (AMR), and Advanced Metering Infrastructure (AMI).....	27
A. Asset Management and Usage Forecasting.....	28
B. Dynamic Pricing	28
C. Tampering, Theft, and Outage Management	29
Chapter II: Supply Automation.....	31
A. Demand Response	32
B. Load Profiling Balancing	35
C. Distribution Network Diagnosis	35
D. Remote Surveillance and Control	35
Chapter III: Supply Control and Optimization	37
A. Supply Monitoring, Analysis and Quality Control	37

B.	Demand-Side Management (DSM)	38
C.	Automated Load Leveling, Shedding and Shifting	39
D.	Automatic Capacitor Bank Analysis and Control	40
 Chapter IV: Putting it All Together		 41
A.	Automation System Selection	43
	Planning & Deployment	44
B.	Operational Analysis	49
	Asset Management.....	50
	Human Resources	51
	Customer Service	52
	Production, Planning, and Open-Market Energy Purchasing..	52
	Field Service, Maintenance, and Restoration Operations.....	54
	Improved Pricing and Billing Operations	54
 Conclusion		 57
Appendices		59
Appendix I :	Vendor Overview.....	61
Appendix II	Advance Metering Infrastructure (AMI) Vendors	91
Appendix III	Supply Automation Vendors	109
Appendix IV:	Supply Control and Optimization Vendors.....	117
